PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (2024) transitioning into Information Security. Combining strong operational discipline from logistics management with recent intensive training in **Network Security, NIST Frameworks, and Incident Response**. Proficient in Linux, Python automation, and TCP/IP analysis. Seeking to leverage skills in security auditing and network defense as a Project Engineer at CDAC.

TECHNICAL SKILLS

- **Cybersecurity:** Network Security (TCP/IP, OSI Model), Packet Analysis (Wireshark), NIST Cybersecurity Framework (CSF), Phishing Analysis, Risk Management.
- **Operating Systems:** Linux (Ubuntu/CLI), Windows.
- **Programming & Databases:** Python (Automation scripts), SQL Basics.
- **Tools:** Wireshark, SAP HANA, Microsoft Excel (Advanced).

CERTIFICATIONS & TRAINING

Google Cybersecurity Professional Certificate | Coursera (In Progress)

- **Status:** Completed core modules on Foundations, Risk Management (Play It Safe), and Network Security (Connect & Protect).
- **Key Learnings:**
 - Conducted simulated security audits using the **NIST Cybersecurity Framework**.
 - Analyzed network traffic patterns and TCP/IP handshakes to detect anomalies.
 - Mastered Linux command-line basics for file system navigation and permission management.

KEY PROJECTS

Network Traffic Analysis Simulation & Security Risk Assessment (Google Cybersecurity Lab)

- Utilized **Wireshark** and command-line tools to capture and analyze data packets.
- Identified insecure data transmission protocols and recommended encryption solutions to secure network traffic.
- Performed a vulnerability assessment for a fictional organization using the NIST CSF.
- Classified assets, identified threats, and proposed mitigation strategies to improve security posture.

WORK EXPERIENCE

FreshToHome (Online Food Marketplace)

Logistics Supervisor (Early Morning Shift)

[May 2023 – Sep 2025]

(Concurrent with full-time role from Nov 2024 - May 2025)

- Shift Leadership: Managed critical early morning supply chain operations (3:30 AM – 7:30 AM), ensuring 100% readiness for daily dispatch.
- Operations: Oversaw inventory flow and updated stock levels to prevent shortages during peak demand.
- Team Management: Supervised last-mile delivery teams and resolved immediate shipping issues to ensure on-time customer deliveries.
- Analytics: Analyzed operational metrics using CRM tools to improve service quality and Order Fill Rates.

Daikin Air-conditioning India Pvt. Ltd. Hyderabad

AMC Executive

[Nov 2024 – May 2025]

- Client Management: Managed the full lifecycle of Annual Maintenance Contracts (AMC), ensuring timely renewals and accurate billing.
- Data Management: Maintained comprehensive customer records using SAP HANA and C4C.
- Service Coordination: Scheduled maintenance repairs and coordinated with technicians to meet strict turnaround times.

TECHNICAL SKILLS

-
- ERP & CRM: SAP [HANA-C4C], CRM Platforms.
 - Operating systems : Windows & Linux
 - Analysis & Programming: Microsoft Excel, Python, Nmap, TCPDump
 - Core Competencies: Supply Chain Management, Inventory Control, Last-Mile Operations.

EDUCATION

B.Tech in Computer Science & Engineering [Specialization : Cybersecurity]	2024
Swami Vivekananda Institute of Engineering and Technology	

Diploma in Leather Technology	2021
Government Institute of Fashion & Leather Technology	

LANGUAGES

English, Telugu, Hindi, Kannada
